McCAULEY
TRAILERS

Product Range

MAC Platform Trailers are ideal for use in the haulage industry. Due to the demands of the industries in which they operate these trailers are built to meet the specific needs of their operators. Individual requirements are reviewed in-house and a range of options ensure the trailer supplied meet the requirements of the customer.

MAC Platform Trailers are manufactured in accordance with Slemish specification; following McCauley Trailers acquisition of Co. Antrim based Slemish Trailers (part of Woolf Engineering) in 2009.

Specification includes:

- Air Suspension
- LED Lights
- Choice of Axles (BPW, SAF, RoR)
- Timber Post Slots
- Galvanized Timber Posts
- Lift Axle
- EBS
- Hardwood Floor
- Headboard
- Rope Hooks & Ferry Rings
- Twist Locks
- Alloy/Steel Crash Rails

MAC Platform Trailers are cleaned, de-greased and sand blasted prior to painting in order to prevent corrosion. They are then primed and painted with 2 Pac Gloss Paint in the customers colours.

All MAC trailers are built with brand new parts and all lights and specification meet EU standards.

Custom Trailers

With our in-house design team we specialise in the customisation of trailers to suit individual requirements and work closely with our customers to supply the exact trailer required.
